

Castleton Housing Needs Survey

Castleton Parish Council is working with Rural Action Derbyshire, High Peak Borough Council and Midlands Rural Housing to understand what types of homes are needed in the village, now and in the future. To do this, a Housing Needs Survey will be carried out, as happens approximately every five years.

All households in the parish will receive a survey by post in early February 2026 and will have around four weeks to respond. The survey can be completed online or returned by post using a pre-paid envelope. It will not be addressed by name, so please look out for it and do not discard it.

Taking part is voluntary, but responses are essential to build an accurate picture of local housing need. All information is confidential, held securely by Midlands Rural Housing, and managed in line with data protection regulations.

The survey also welcomes responses from people who have moved away due to a lack of affordable housing. For extra copies or queries, contact enquiries@midlandsrural.org.uk
