10/09/26	<u>Items for the Peveril Post</u> To be discussed

The following Ordinary Meeting of the Council is currently planned to take place at the Walker Room, Peveril Centre, Castleton on Thursday 29th October 2026.

Buses and Public Transport Strategies and Active Travel

In July we reported back on the bus contracts up for renewal by EMCCA (East Midland's Mayor's office) and in the light of the threat to **Service 62** a meeting took place with an EMCCA and High Peak Buses, with the CPC and Cllr Collins. This was followed up by a direct approach to the Mayor to save and improve the 62. Ideally, we are seeking a direct bus to Buxton but if this is not feasible, a retained and improved service is sought. NB we must continue to do our best to promote the 62 and hope that EMCCA and the 'Mini Switzerland' project supports the continuation and improvement of this service.

In July a group of councillors attended an event organised by Hope Valley Climate Action (HVCA) celebrating the **Mini Switzerland** transport project. Better Buses for Castleton were also represented. It was attended by the Mayor, and we heard from a range of stakeholders that included the Mayor's project team, CEO of the Peak Park, marketing manager of Visit Peak District and Derbyshire, representatives of bus and train operators, and our High Peak MP. We heard more about the project with funding from central government and matched funding from EMCCA, which aims to transform rural transport in the Peak District. We stated that we await more information from EMCCA about their plans to take 'Mini-Switzerland' forward and we continue to feel that it is in the best interests of our village that we keep in touch with all developments.

However, since the above update we have now heard that EMCCA have formed a steering group to deliver 'Mini Switzerland,' and an invitation has been sent to all Hope Valley Parish Councils to attend the inaugural meeting on September 24th. It appears that parish councils have only been designated as Observers to the Steering Group which potentially gives us limited opportunity to influence decisions on the implementation of the project proposals. We are trying to clarify how this Steering Group will take Hope Valley residents' views into account, especially when our village has surveyed residents on public transport issues. We are asking how the team of EMCCA consultants employed to lead on the project intend to take account of the views of local residents and visitors who use bus and rail services. We will report back ASAP.

Finally, we note that the Mayor's Transport Plan has not yet been published but an interim report is available. The CPC and our action group Better Buses for Castleton strongly encouraged residents to participate in the survey and so it is pleasing to see such a good response from the High Peak.

Hope Valley Parish Councils meeting

The 4th meeting of Hope Valley Parish Councils was hosted by Bamford Parish Council on 8th September, with representation from seven parishes. It was agreed to adopt "Hope Valley Parish Partnership" as our group name, with the remit of considering strategic issues that affect all or most of the Hope Valley parishes.

An update was given by Castleton PC on an initiative to put public information on backs of buses concerning wildfire. A letter had gone to the EMCCA Mayor following the previous meeting, and a reply received acknowledging that the idea had merit and could be considered in the future. Castleton PC had also obtained a quote for a modest lower rear back of bus campaign from Global who cover 95% of advertising for UK bus depots, and the principle of HVPP jointly funding such a campaign next year was discussed, subject to agreement from individual parish councils.

The next meeting of HVPP will be hosted by Grindleford Parish Council.
